## PERSONAL PROFILE

---

Highly skilled Mobile Application Developer with hands-on experience in Flutter, Dart, Firebase, REST APIs, Provider, and GetX. Proficient in building advanced Android and iOS mobile applications with a focus on performance, scalability, and user experience. Experienced in full-stack mobile development — from requirement gathering and UI design to deployment on the Play Store.

Proven track record of delivering high-quality mobile applications across food delivery, grocery, e-commerce, and legal service domains. A collaborative team player with excellent communication skills, committed to creating impactful solutions and contributing to organizational success.

## PERSONAL QUALITIES

---

- **Problem-Solving:** Strong debugging and performance optimization skills with attention to detail.
- **Adaptability:** Continuously learning new technologies such as Flutter updates, Dart improvements, and mobile architecture patterns.
- **Teamwork:** Able to collaborate effectively within development teams and mentor junior developers.
- **Time Management:** Capable of handling multiple project deliverables simultaneously and meeting deadlines.
- **Effective Communication:** Clear communicator with clients, colleagues, and stakeholders at all levels.

## TECHNICAL SKILLS

---

- **Languages:** C, C++, Java, Dart
- **Frameworks:** Flutter, Laravel
- **Databases:** MySQL, Hive, SQLite, Firebase
- **State Management:** Provider, GetX
- **APIs:** REST API
- **Tools:** Android Studio, VS Code
- **Operating Systems:** Windows, Linux, macOS

## EMPLOYMENT

---

### Software Engineer — iNiLabs

July 2023 – Present

Mirpur DOHS, Dhaka-1216 | Full-Time

- Developed and maintained multiple Flutter-based applications for food delivery, grocery, and e-commerce platforms published on the Google Play Store.
- Built and integrated REST APIs, Firebase services, and third-party payment gateways into mobile applications.
- Implemented scalable state management using Provider and GetX for complex app workflows.
- Collaborated with cross-functional teams to define, design, and ship new features, contributing to improved customer satisfaction.
- Utilized local databases (Hive, SQLite) and Firebase for offline-first and real-time app experiences.

## **Android Developer (Flutter) — Badhon Software and Solutions**

*October 2022 – June 2023*

*Bonomala Road, Tongi, Gazipur-1700 | Full-Time*

- Assisted in the development of Flutter-based Android applications, contributing to UI design and API integration.
- Debugged and resolved software issues, improving application stability and user experience.
- Participated in the full software development lifecycle from planning through deployment.
- Worked closely with senior developers to implement best practices in mobile app architecture.

### **Mobile Application Development – Android**

BASIS-SEIP (Tranche-3), BITM, Dhaka

*June 2022 – September 2022*

Result: Competent

## **PROJECTS**

---

### **TiffinKing – Delivery Boy App**

The official delivery partner application for the TiffinKing food delivery platform. Designed for delivery personnel, this app empowers riders to handle daily tiffin deliveries quickly, accurately, and with complete ease — keeping them organized and connected every step of the way.

[View on Google Play](#)

### **TiffinKing – Customer App**

A trusted companion for daily, healthy, and delicious homemade meals delivered to your doorstep. Offers a smooth experience for subscribing to meal plans, tracking deliveries, and managing tiffin preferences in a few taps — ideal for students, professionals, and home-cooked food lovers.

[View on Google Play](#)

### **FoodKing – KIOSK App**

A KIOSK app designed for food service settings (restaurants, cafes, food courts), enabling customers to place orders directly via self-service kiosks without a server.

[View on Google Play](#)

### **FoodKing – KDS / Chef App**

A smart kitchen order management app for restaurants and cloud kitchens, integrating seamlessly with POS systems to help kitchen staff track and prepare orders efficiently.

[View on Google Play](#)

### **FoodKing – Merchant App**

A comprehensive food delivery and restaurant management system supporting both single and multi-branch restaurants with full operational control.

[View on Google Play](#)

### **StoreKing – Customer & Delivery Apps**

An innovative grocery application suite for retail businesses (single or multi-outlet), including a customer-facing shopping app and a delivery partner app for managing orders and routes.

[View on Google Play](#)

**ShopKing – Customer App**

An eCommerce application and business management solution crafted for single or multi-branch retail businesses, improving performance and customer engagement.

[View on Google Play](#)

**KASEY – Singapore Marketplace App**

A Singapore-based platform for buying and selling pre-loved items, connecting local sellers and buyers to promote a sustainable lifestyle and reduce waste.

[View on Google Play](#)

**Vangari Mama**

A second-hand goods marketplace where sellers list used items and buyers purchase them at agreed prices — promoting affordable, circular commerce.

[View on Google Play](#)

**MaxxFortune – Digital Advertising Platform**

A digital advertising platform bridging businesses and potential customers, suitable for both small startups and large enterprises looking to expand their reach.

[View on Google Play](#)

**Upodesta & Upodesta Lawyer App**

A legal services platform connecting users with lawyers for appointments and consultations, paired with a lawyer-side admin panel app for managing professional profiles and schedules.
